

PMP Exam Preparation Workshop Description

WORKSHOP DESCRIPTION

This 6-day, 12-sessions instructor-led online PMP Exam Prep program provides a detailed review of everything that participants need to pass the exam. The material covers everything from completing exam application form, the 3 PMI new Domains, People, Processes and Business Environment, to actual tips on writing the exam.

The workshop is delivered by Dr. Sami Fahmy of Performance Excellence Institute (PEI) in collaboration with Procept Associates Ltd and Edmonton Construction Association (ECA)

The workshops focus on PMI terminology and PMIisms as it relates to the 3 new domains: People, Processes, and Business Environment. The goal is to get participants ready for passing the exam from first trial. Although the workshop is intended to help participants write and pass the exam, **participants will get a large dose of practical experience as well as some principles** to help them in their day-to-day project management work ([See detailed workshop topics below](#))

WHO SHOULD ATTEND?

This program is designed to prepare new and intermediate project managers and project team members to pass the PMP Certification Exam with high marks. The workshop also perfectly fits the needs of individuals who are interested in learning more about PMI's approach to project management.

LEARNING OBJECTIVES

The objective of this program is to prepare participants to write and pass the PMP exam. In addition to mastering the required exam skills, participants will develop advanced-level management skills. The workshop focuses on explaining PMI terminology, people-oriented approaches, processes and tasks and business terminology. The approach makes it easy for participants to understand and appreciate the new terminology used by PMI.

DELIVERY APPROACH AND METHODOLOGY

- The program is divided into 12- 3 ½ sessions or modules. This is done purposely in order to ease the participants into the topics and to familiarize them with the effective utilization of project management skills.
- PEI uses PMI provided material to teach participants the necessary knowledge and tools required to pass the exam.
- The program provides a detailed review of everything that the participants need to pass the exam. In addition to PMI knowledge and tools, the workshop covers PMP exam application form, a review of all math formulas and actual tips on writing the exam. See detailed exam prep. Workshop outline
